

## What?

A one-day introduction to the techniques of using hand-drawn visuals in a range of professional contexts, including group facilitation, coaching and training.

You will learn the basics of visual language and how to use a mix of simple drawings, colour, words and metaphors to develop and share ideas, record presentations and meetings, and engage and energize groups.

Thinking that you can draw is absolutely not a prerequisite— if the techniques interest you and you're prepared to experiment, please join us. We will spend plenty of time during the day practising and sharing within the group.

Engage both your right and your left brain and have fun!

Host and facilitator: Sarah Clark, [www.clearthinking-clearcommunication.ch](http://www.clearthinking-clearcommunication.ch)

## When and where?

One day, **date to be confirmed**

Timing: 08.30 to 17.30
